

EMBROIDER FOR FUN 2024 – Challenge #1: Raw Edge Appliqué

Raw Edge applique, sometimes called loose-edge applique, this style has a casual, free-form, organic feel to it. From reading all the comments from all the participants it appears that everybody had great fun in creating their designs. Trying out different types of fabric and thinking out of the box was great to see! Your enthusiasm and creativity have been inspiring, and we are thrilled to see the amazing projects you have created.

Well done to all the participants and congratulations to the 2 winners of Challenge #1.

I am including the winners of challenge #1, in no particular order, as well as some entries I thought can be helpful for fellow software users:

(Descriptions and captures as given by entrants and in some cases shortened for space)

PLEASE NOTE: Due to a problem with our Facebook page we could not post the comments of the participants. This issue has been rectified and the Facebook Page is up and running once again.
