# QuiltMotion Touch for BERNINA

# QuiltMotion Touch PantoStacker

Created by Denise Jones

*Use QuiltMotion Touch for BERNINA to create an allover pantograph design using one of the newest features, PantoStacker.*
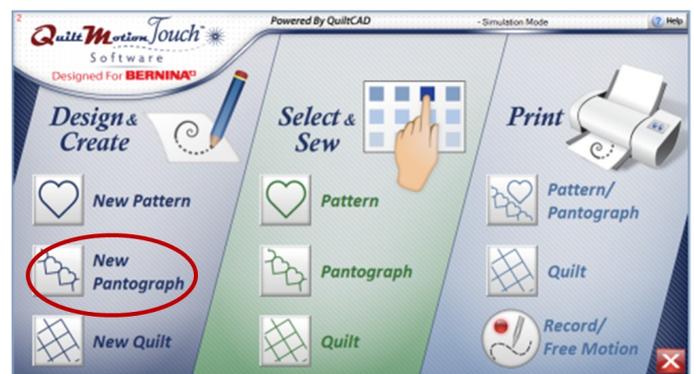

## Supplies

**Machine & Accessories**
- BERNINA 8 Series or 7 Series Sewing Machine
- BERNINA Quilting Frame
- QuiltMotion Touch for BERNINA

## PantoStacker

- Open **QuiltMotion Touch**.
- From the Home screen open **New Pantograph**.

- Set **Safe Area** if prompted to do.
- Change the **PantoStacker** mode to **Basic**.
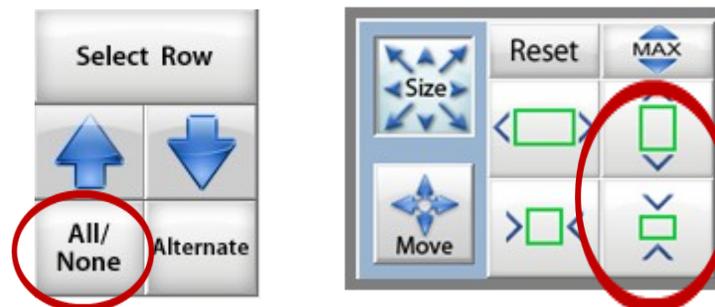

# PantoStacker con't

- Enter "Total Height"-Sample used 60".
- Enter "Total Width"-Sample used 50".
- Select Design-from the Continuous Line folder-Sample used "Stiple.gpf."
- Enter number of "Rows" desired-Sample used 9.
- Enter number of "Patterns" desired-Sample used 7.

- Check layout to see if spacing between the rows reflect the same spacing in the design.
- The **Zoom** feature can be used to check the spacing on the rows.

- If adjustments are needed use the **Size** icon to change the size of all the rows at one time.
- Make sure all rows are selected by using the **All/None** in the bottom tool bar.
- Making any changes with the greater height and lesser height.

.

# PantoStacker con't

- When all looks good **Quilt as Rows**.
- Using the **Anchor** placements to set the first row and each after that one.

•With quilt top loaded straight and square you should only have to Anchor each row and quilt across.

•Last row may need some adjustment as the quilt top will shrink some with the quilting that takes place.

•If adjusting is needed use the placement icons in the bottom row the make those adjustments.
