

Quilter's Creative Touch

Design & Create– New Pattern

Mirrors– Draw Basics

Mirror tools give the ability to draw lines on a pre-defined mirror master and have them repeated and symmetrical to create amazing results quickly and easily.

- From the **Main Menu**
- Touch **New Pattern** under the **Design & Create**
- Select **Mirror > Draw**
- Select **Node Spacing > Mirror Draw**
- **Quick Mirrors > select Horizontal & Vertical**

Draw

- Select **Pattern > Draw**
- Begin at the center and draw along the Master Mirror ending on the Master Mirror (*the Master Mirror is the dark line*)

Smooth Lines

- Select **Pattern > Edit > Select All > Smooth**
- Select **Apply Mirrors** to keep the duplicate lines to create the pattern

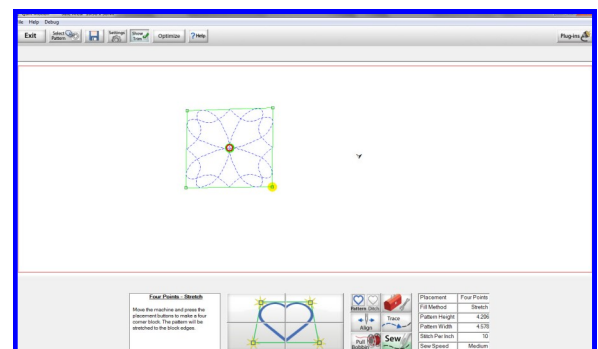

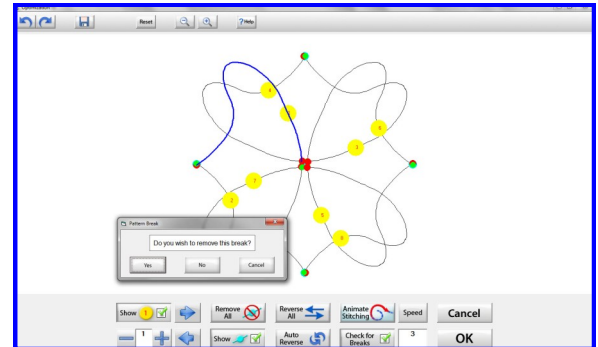

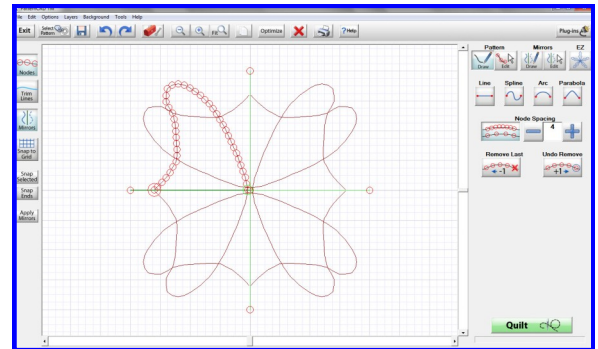

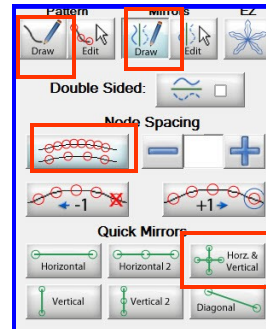

Optimize

- Select **Check for Breaks > Animate Stitching**
- Remove breaks to create continuous stitching
- Connect Start and End points if applicable

In more complex patterns the need to re-order the stitch patterns may be necessary to achieve one pattern from multiple pattern segments.

Save

- Select **Save > create a New folder > name the folder**
- Select new folder > name the new pattern > **Save**
- Select **OK**
- Select **Quilt**
- Place the Pattern for Sewing

Help Sheet

Mirrors– Draw Tools

- **Double Sided Mirror** — Enables and Disables the Double Sided mirror.
- **Mirror Draw Tool** - use to place a mirror and size and if there will be more than one segment to the mirror. Enable mirror segments to adjust the length of the segment with the + and - buttons.
- **Mirror Segment Length** — Adjust the distance between each mirror segment.
- **Remove one segment** — goes back one segment in the mirror line.
- **Add one segment** — add the segment back if it has been removed

Quick Mirrors

- **Horizontal** — Places a horizontal mirror, one segment.
- **Horizontal 2** — Place a horizontal mirror with two segments.
- **Horizontal and Vertical** — Places four mirror segments. 2 horizontally and 2 vertically, each the same length.
- **Vertical** — Places a vertical mirror, one segment.
- **Vertical 2** — Place a vertical mirror with two segments
- **Diagonal** — Place a diagonal mirror, one segment.

Mirrors Edit

Size-

- **Increase width** — Increases the width
- **Increase height** — Increases the height .
- **Decrease width** — Decreases the width .
- **Decrease height** — Decreases the height
- **Aspect Ratio lock** — When selected the lock is closed. The width and height will change proportionately When unselected the lock is open, any changes made are applied to that dimension only.

Rotate-

- **Rotate 1°** - Rotates the mirror or selection 1°
- **Rotate 5°** - Rotates the mirror or selection 5°
- **Rotate 15°** - Rotates the mirror or selection 15°
- **Rotate 45°** - Rotates the mirror or selection 45°
- **Reverse** - Reverses the direction of rotation, by default the pattern will rotate to the left
